## Announcing our Lobby Reopening on Monday, June 1, 2020

The Atlanta National Bank continues to closely monitor daily information regarding the COVID-19 global pandemic from federal, state and local health experts. We appreciate the understanding our customers have shown during Illinois Department of Public Health (IDPH) Phase One and Phase Two periods. Your support has been vital in helping our community and our employees maintain a safe, healthy environment.

As you may know, our Atlanta and McLean locations are in different IDPH Regions. With the movement to IDPH Phase Three, we are now able to announce modified lobby access to both of our locations. To ensure a safe environment for our customers, employees and communities, we are asking all customers and visitors to adhere to the following guidelines:

- **Atlanta Lobby is limited to 4 customers at any time, McLean Lobby is limited to 2 customers.**  
We kindly request that you remain outside if you see an abundance of customers, or if one of our staff asks you to wait. You may also continue to utilize our drive-through windows with no restrictions if this occurs.
- Social Distancing is encouraged. Please **allow 6-foot spacing at all times**, including in the teller line and at other contact points. We will have floor markings designating proper spacing.
- **Plexiglass Shields** have been installed at teller stations in addition to other contact points.
- **Face Coverings** are considered the norm during Phase Three. We reserve the right to request that you temporarily lower your face covering if we are unable to identify you.

Even with the reopening of our lobbies, we continue to encourage you to use Online Banking and ATMs. Additionally, because access to our lobbies remains partially limited, we request that you continue to contact us at 217-648-2315 (Atlanta) and 309-874-2313 (McLean) should you need to meet with an employee or access your safe deposit box.

The Atlanta National Bank remains a strong, stable banking institution and is committed to serving our customers and communities. To this end, we continue to do our part to limit the spread of COVID-19.
